

## IMMUNIZATIONS

The immunization clinic provides and monitors immunizations for assigned Active Duty personnel, Reserve, Retired and family members. The immunizations clinic also provides patient education on vaccines and after-care instructions in addition to providing immunizations members for routine, mobility and travel purposes in accordance with the Advisory Committee of Immunization Practices.

**Small Pox Briefing:** Monday, Tuesday, Wednesday and Friday at 1300; Thursday at 0800, must check in at Immunizations 15 minutes prior to fill out the appropriate form(s).

Everyone receiving Smallpox must attend a mandatory briefing. Patients are vaccinated immediately afterward if there are no contraindications.

**Yellow Fever Injections:** administered Wednesday between 1400 and 1500 only. Patients must call ahead to reserve a space and arrive at the Immunizations clinic by 1400.

- If you need both Yellow Fever and Smallpox, the best time to come is Wednesday at 1300. Smallpox and Yellow Fever are live attenuated vaccines and must be given either at the same time or 30 days apart.

**Tuberculosis Testing (IPPD)** is provided every day except Thursday.

Special consideration

- Smallpox, Anthrax, Yellow Fever and Tetanus can be given 60 days prior to deployment
- When notified of a deployment or TDY, please visit or call the Immunizations Clinic at (609) 754-9209.
